Use a Token with Two-Step

Choose “Token” as your way to verify

1. Choose Token from the Device list

2. Click the “Enter a Passcode” button

Press the button on your token

3. Press the button to generate a new code

Retype the code

4. Type the code displayed on the hardware token (it can only be used once)

“Remember Me” makes it easy!
Check “Remember Me” to avoid another prompt on this browser for 30 days
