Access Your Account if Locked Out of Two-Step Verification

Did you check "remember me for 30 days" on another computer? If so, you may be able to log in on that computer and add additional devices or generate bypass codes in MyAccount.

If you're completely locked out, you’ll need to contact the IT Service Center at (401) 863-4357. They will verify your identity and can provide a temporary bypass code.
