

Adding and Formatting Tables

William Bordac - 2017-10-23 - Comments (0) - Create Content

To add a table to a page (when in editing mode):

1. Click the Add table button (see image 1)
2. In the pop up, add the number of rows and columns you want.
3. Enter content as desired, including images, headings, links, etc.

If you want to remove the table formatting, the borders and background colors:

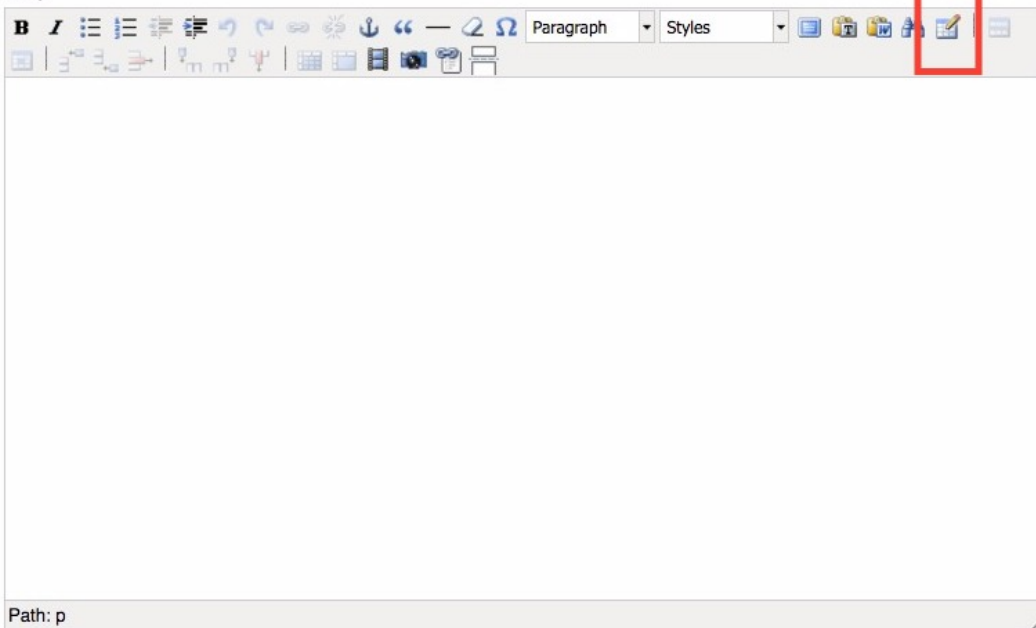

1. Place your cursor in any cell of the table
2. Click the Table Cell Properties button (see image 2)
3. Go to the Advanced tab of the pop up.
4. For both Border Color and Background Color, enter #ffffff (which is the hexadecimal number for white).
5. Before hitting Update- select "Update all cells in table" from the dropdown just above the Update button.
6. Now click Update.

The toolbar contains various icons for text formatting (bold, italic, underline, strikethrough, text color, background color), alignment (left, center, right, justified), indentation, bulleted and numbered lists, link and unlink, insert link, insert image, insert video, insert audio, insert table, insert table of contents, and a full screen icon. The table icon is highlighted with a red box.

Path: table » tbody » tr » td
