Adding LinkedIn information to your Brunonia profile

timothy mueller-harder - 2018-08-11 - 0 Comments - in Alumni

To make your profile page as informative and helpful as possible, you may wish to connect it to your profiles on other websites, such as LinkedIn. This page has instructions for how to add a LinkedIn account to your page.

Visit the **Contact** page. The **Social Media** section is where you can add links to your Facebook, Twitter, and LinkedIn accounts.

The screenshot shows the Brunonia profile page with a modal window titled "MY PROFILE - ADD SOCIAL ACCOUNT". The modal contains the following fields and options:

- Type***: Professional (dropdown menu)
- Social media service***: LinkedIn (dropdown menu)
- Username**: [Redacted]
- Profile Address***: https://www.linkedin.com/in, [Redacted]
- Visible in Directory?**: Yes (radio button selected)

Buttons at the bottom of the modal are "SAVE" and "CLOSE". The background page shows the "Social Media" section with a "LinkedIn" link and an "ADD SOCIAL ACCOUNT" button.

For LinkedIn, set the following settings:

- **Type:** Professional
- **Social media service:** LinkedIn
- **Username:** your LinkedIn username (optional)
- **Profile address:** the URL of your LinkedIn Profile*

* If you don't know this information, log into your LinkedIn account and click on "Me" (the link that has your profile picture) and choose "View profile." On this page, the browser's URL will read something like: https://www.linkedin.com/in/profilename/. This is your profile address.
