## Adding or removing co-hosts when scheduling a Zoom meeting

pat kinghorn - 2021-05-11 - Comments (0) - Zoom Scheduling

When using the Chrome Zoom Scheduler plugin the sequence used in setting up the calendar event controls the host of the event since Zoom will default to the last host on record.

Launch Chrome and click on the Zoom plugin icon on the right hand side of your screen:

Make sure that "Allow me to specify schedule options each time" is checked off.

## Zoom Schedule Options

Meeting ID	<input checked="" type="radio"/> Generate automatically	<input type="radio"/> Personal Meeting ID 401 863 7217
Security	<input type="checkbox"/> Passcode ⓘ Only users who have the invite link or passcode can join the meeting	
	<input checked="" type="checkbox"/> Waiting Room Only users admitted by the host can join the meeting	
	<input type="checkbox"/> Only authenticated users can join	
	<div><p><b>i</b> Your security settings have been synced from your Zoom web portal</p><p><a href="#">Change Default Settings</a></p></div>	
Video	Host <input checked="" type="radio"/> On <input type="radio"/> Off	
	Participant <input checked="" type="radio"/> On <input type="radio"/> Off	
Audio	<input type="radio"/> Telephone	<input type="radio"/> Computer Audio
	<input checked="" type="radio"/> Telephone and Computer Audio	<input type="radio"/> 3rd Party Audio
Options	<input type="checkbox"/> Require registration	
	<input checked="" type="checkbox"/> Enable join before host	
	<input type="checkbox"/> Mute participants upon entry	
	<input type="checkbox"/> Automatically record meeting	
	<input checked="" type="checkbox"/> Include Invite Link in location field	
Alternative hosts	<input type="text" value="john@company.com"/>	
	<input checked="" type="checkbox"/> Allow me to specify schedule options each time	
	<input type="button" value="Save"/>	<input type="button" value="Cancel"/>

Click on a time block in your Google calendar.
