

Attaching PDFs to videos in Panopto

Stephanie Obodda - 2017-07-06 - Comments (0) - Panopto

How to add a PDF to a video in Panopto

Panopto allows you to attach one or more PDF files to a video that will display as a source in the player for viewers to select while watching a video. It will display like a normal PDF in a browser.

1. Once you have a video uploaded you can attach a PDF by going into the video **Settings**

2. On the left hand side of settings click **Streams**

 **Instructc**

2

Choose File | No file chosen | Upload PDF

The PDF should immediately show under the PDF Documents and you have the option to delete if necessary.

PDF Documents

Filename

UploadUserGuide.pdf

Delete

Repeat this step for multiple PDF attachments.

4. The PDF will appear alongside a single video file. Viewers can scroll through the PDF while watching the video or they can choose to go full screen to watch just the video.

The screenshot shows the Panopto interface. On the left, there is a video player showing a dark room. Below the video player is a search bar and a notes section. The main content area displays a PDF document titled "HOW TO BATCH UPLOAD VIDEO FILES". The PDF content includes instructions on how to upload video files, with a "Create" button highlighted in a red box. At the bottom, there is a video player control bar with a progress bar and volume icon.

If attaching a PDF to a lecture capture or a dual source recorded video the PDF will appear as selectable option for the viewer in the right side window:

UNIVERSITY OF MINNESOTA | Powered by Panopto | LC Echo upload test | February 17, 2016 in Lecture Capture | Help | Kyle Sloane | Sign out

The screenshot shows the Panopto interface during an upload process. On the left, there is a search bar and a table of contents. The main area displays a video player with a red arrow pointing to the 'Upload...' button in the bottom right corner. The interface also shows a progress bar and various control buttons like 'Speed', 'Quality', 'Upload...', 'Slides', 'Camera', and 'Hide'.
