

Attaching PDFs to videos in Panopto

Stephanie Obodda - 2017-07-06 - Comments (0) - Panopto

How to add a PDF to a video in Panopto

Panopto allows you to attach one or more PDF files to a video that will display as a source in the player for viewers to select while watching a video. It will display like a normal PDF in a browser.

1. Once you have a video uploaded you can attach a PDF by going into the video **Settings**

2. On the left hand side of settings click **Streams**

 **Instructc**

2

Choose File | No file chosen | Upload PDF

The PDF should immediately show under the PDF Documents and you have the option to delete if necessary.

PDF Documents

Filename

UploadUserGuide.pdf

Delete

Repeat this step for multiple PDF attachments.

4. The PDF will appear alongside a single video file. Viewers can scroll through the PDF while watching the video or they can choose to go full screen to watch just the video.

HOW TO BATCH UPLOAD VIDEO FILES

There are two different ways to upload already existing video files:

1. Upload from the New Session page (only allows one video file to be uploaded at a time)
2. [How to Upload Files from the Editor \(Composer Mode\)](#) (allows for multiple video/presentations files to be uploaded)

[How to Upload video files from the New Sessions page:](#)
Click All Folders or My Folders on the left hand column and choose the Folder where the session will be created

Click the Create option on the top panel after choosing your folder

PANOPTO

Search in Folder: "Upload Document" [Create](#) | Upload Details | Support | Download Resources

Quality

If attaching a PDF to a lecture capture or a dual source recorded video the PDF will appear as selectable option for the viewer in the right side window:

UNIVERSITY OF MINNESOTA | Powered by Panopto | LC Echo upload test | February 17, 2016 in Lecture Capture | Help | Kyle Sloane | Sign out

The screenshot shows the Panopto interface during an upload process. On the left, there is a search bar and a table of contents. The main area displays a video player with a red arrow pointing to the 'Upload...' button in the bottom right corner. The interface also shows a progress bar and various control buttons like 'Speed', 'Quality', 'Upload...', 'Slides', 'Camera', and 'Hide'.
