By default, browsers will notify you when a pop-up is blocked and give you an option to disable it for that instance. The following are links to support articles for the pop-up blocker functions of the most common browsers:

- **Chrome: Computer, Android, iPhone &iPad** (Block or allow pop-ups in Chrome)
- **Firefox** (Pop-up blocker settings, exceptions and troubleshooting)
- **Microsoft Edge** (Block pop-ups in Microsoft Edge)
- **Safari** (Allow or block pop-ups in Safari on Mac)
