Brown's Wireless Connection Settings

Stephanie Obodda - 2018-02-16 - Comments (0) - Brown Wireless

Please review the related articles at the bottom to see if there is documentation to support your device. We strongly recommend that you follow steps on wifi.brown.edu to connect your device. Some smart devices cannot connect to Brown and should connect to Brown-Guest. You can try to connect to Brown using the following network information:

SSID = Brown

EAP method = PEAP

Phase 2 authentication = MSCHAP-v2

Identity = Your Brown username (e.g. jcarberr)

Wireless password = your Brown password

Anonymous Identity = BLANK
