Change to accessing call history on Brown phones

Stephanie Obodda - 2019-06-26 - 0 Comments - in Telephones

Starting June 28th, an update to some phones at Brown will change the way you access your call history. Instead of pressing the navigational pad down, you will press up.

Affected models:

8811/51

8845/65

To access your call history after this update, press **up** on your navigation pad.
