

## Cognos Analytics Known Issues

Wendi Lewis - 2023-11-04 - Comments (0) - Cognos Analytics

No Known Issues

There are **no known issues** in the current version of Cognos Analytics.

Resolved

The following issues were all RESOLVED on November 4, 2023 when Brown upgraded from 11.1.7 to the current 11.2.4 version .

Functionality	Description	Issue ID
External Data	In trying to connect to an external data source, after selecting the Excel file, the OK button doesn't respond and remains greyed out. <b>Workaround:</b> Save the Excel file as .xls (from .xlsx) and then the OK button will accept the external data.	<a href="#">PH30937</a>
Framework Manager	Issue importing DQM model using a SQL Server datasource.	<a href="#">PH40239</a> resolved in 11.1.7 fix pack 5
Jobs	Existing Jobs fails to open with "Failed to retrieve job steps" error. This occurs when the link to an underlying report within the job step definition is broken.  <b>Workaround:</b> Contact the <a href="#">Business Intelligence Team</a> for help if you encounter this error.	<a href="#">PH29140</a> resolved in 11.1.7 fix pack 2
Jobs	For the owner of a schedule, credentials (under Properties > Advanced) show the user ID of a different user who does not own the schedule. <b>Workaround:</b> From the user icon (top-right corner), select My schedules and subscriptions. Here you can see all of the schedules and subscriptions you own.	TS005137423 resolved in 11.1.7 IF4
Jobs	Edit email recipients in default for all steps and receive a white screen. <b>Workaround:</b> <a href="#">Contact the BI Team</a> who can edit the recipients for you. Be sure to include the job name, location, and recipients you wish to add/remove.	6671   TS007694459 no resolution planned

Functionality	Description	Issue ID
My schedules and subscriptions	In My schedules and subscriptions, Run once only works for one report and then doesn't respond for subsequent reports. <b>Workaround:</b> Refresh the browser tab, and then use Run once again	PH30277 resolved in 11.1.7 fix pack 2
Package properties	After upgrading from 11.0.13.1 (LTS) to IBM Cognos Analytics 11.1 R4 Advanced routing rules is no longer visible under package properties	TS003243275 resolved in 11.2.0
Report authoring	When copying an existing report spec or a newly created report spec in a newly opened Report Studio window, the copied over report spec will not have the routing rules applied	<a href="#">PH22148</a> resolved in 11.2.0
Report authoring	When adding a data source to a report from the Data folder, the Packages folder shortcut is missing.  <b>Workaround:</b> Navigate to the Packages folder from the Team content icons. OR Instead of adding the data source in report authoring, on the navigation bar, click the Data folder icon, then click Packages, and then for the package you want to work with click ... (More), and then select Create report.	PH30167 TS004200336 resolved in 11.2.3
Running reports in the background	When you run a report in the background to be delivered by email as an attachment, the subject line is delivered blank.  <b>Workaround:</b> When you edit email options, click into the <b>Subject</b> field and edit it in some way (for example, type a space) or type a new subject line.	<a href="#">PH30905</a> Resolved in 11.1.7 fix pack 3
Running reports in the background	When you run a report in the background to be delivered by email as an attachment and in the email <b>To</b> field you add another recipient (in addition to your default user ID), the additional recipient receives the report by email as expected, but you receive an "Undelivered Mail Returned to Sender" email.  <b>Workaround:</b> When you edit the email options, in the To address field, delete your user ID and replace it with your email address.	PH28978 Resolved in 11.1.7 fix pack 2
Schedules	In a Team content folder, consumers with run permissions cannot save report output versions or schedule reports.  <b>Workaround:</b> upgrade to 11.1.7 fix pack 3	<a href="#">PH36814</a>

Functionality	Description	Issue ID
Schedules	<p>In report properties, unable to click <b>Use my credentials</b> link to take ownership of a schedule.</p> <p><b>Workarounds:</b> Either delete the existing schedule and create a new schedule or contact the Business Intelligence Team (CIS-ReportingTeam@brown.edu) for help changing the owner of a schedule.</p>	<p>TS004363054 Resolved in 11.1.7 fix pack 2</p>
Schedules	<p>In the Advanced Properties of a schedule, the credentials display another user who is not the schedule owner.</p>	<p>resolved in 11.1.7 interim fix 4</p>
Whitelisting email domains	<p>Whitelisting does not work (this is an administrator feature)</p> <p><b>Workaround:</b> None</p>	<p>PH32653</p>
