Comparison of Survey Tools

maggie vecchione - 2018-05-10 - Comments (0) - Google Drive

What is the difference between Qualtrics, Google Forms and Canvas?

Qualtrics: A survey tool within Brown University that provides complex qualitative and/or quantitative reports.

Google Forms: A survey tool within the Google Suite that provides simple qualitative and/or quantitative reports.

Canvas Survey: A survey tool within Canvas courses that provides simple qualitative and/or quantitative reports.
