## Connect iOS to Brown's Wireless Network

Stephanie Obodda - 2024-06-21 - Comments (0) - Brown Wireless

*If you're having difficulty logging onto the wireless network, make sure your username and password are working by going to <https://myaccount.brown.edu> and logging in. You can contact the IT Service Center for username and password issues or you continue to have issues connecting to the WiFi.*

---

Go To [wifi.brown.edu](http://wifi.brown.edu)

While on Brown-Guest, go to [wifi.brown.edu](http://wifi.brown.edu) and follow the onscreen steps.

### **Brown (secure)**

Brown (secure) WiFi uses your **Brown username and password**. Make sure to use your username in **all lowercase** letters. Using an uppercase letter will cause an authentication issue.

### **Eduroam**

Eduroam uses your Brown **username@brown.edu** and password. This is your short Brown username, **not your Brown email address**.

### Configuration File

Following through onscreen prompts at [wifi.brown.edu](http://wifi.brown.edu), you will download a Configuration file.

The configuration file for **Brown** is here:

<https://na1.cloudpath.net/enroll/BrownUniversity/Production/submit-selection?selection=SelectionPromptItem-CB7547C2-CB82-464B-B642-37B6BB3EBF8D>

The configuration file for **Eduroam** is

here: <https://na1.cloudpath.net/enroll/BrownUniversity/Production/submit-selection?selection=SelectionPromptItem-76e4f3b9-23fa-4f5c-9c3c-724bd8ed527b>

Once downloaded, proceed to allow its installation. After it's installed, go to **Settings > WiFi >** and tap on **Brown** or **Eduroam**. You will be asked to sign in. Sign in as instructed above.

## Troubleshooting

**Username and Password:** Make sure you can sign into sites like MyAccount by manually typing in your Brown username and password.

**Forget Brown:** If you've connected, or attempted to connect, to Brown before, go into the Wifi settings and **forget Brown**. This [KB article](#) shows how to forget Brown-Guest, but is applicable to Brown as well.
