

Connect to Brown's RemoteApp Service on Linux (Unsupported)

Kyle Oliveira - 2020-03-16 - Comments (0) - RemoteApp

These instructions are provided as is without support. You may not have access to all RemoteDesktop features. Use at your own risk.

Note: RemoteApp connections will automatically disconnect after 8 hours of inactivity.

Remmina

Remmina will be the software used to connect to RemoteApp

Add the Remmina-Next PPA to Debian

```
sudo add-apt-repository ppa:remmina-ppa-team/remmina-next
```

```
sudo apt-get update
```

Install Remmina

```
sudo apt-get install remmina
```

OR

```
sudo yum install remmina
```

RemoteApp

1. Go to <https://remoteapp.brown.edu/> and login
2. Click on whichever application(s) you'd like to add to Remmina. This will download an **RDP file**.
3. Once downloaded, open **Remmina**
4. Click on the "**hamburger**" ≡ icon
5. Click **Import**
6. Navigate to the downloaded RDP file and open it
7. **Right-click** on the added RDP in Remmina and click **Edit**
8. Change the **Profile Name** to the name of the RemoteApp
9. Input your **Brown username** in the **User name field**
10. Input your **Brown password** into the **User password field**
11. Input **ad** into the **Domain field**

12. Set the **Resolution**

1. You may need to adjust this setting for each RemoteApp. Resizing is not supported.

13. Click on **Save and Connect**
