Connect to Brown's RemoteApp Service on macOS with Remote Desktop 8.0.44
Kyle A. Oliveira - 2018-09-25 - 0 Comments - in RemoteApp

These steps only apply to the soon-to-be deprecated version of Microsoft Remote Desktop for macOS. Refer to this KB article on instructions to setup the newest version.

1. Click on Remote Resources

2. Insert the following:
   - URL: https://remoteapp.brown.edu/RDWeb/Feed/webfeed.aspx
   - User name: ad\brownusername
   - Password: <yourBrownPassword>
   - Click Refresh and close out the Resources window.
3. Double-click on an app to run
