These steps only apply to the soon-to-be deprecated version of Microsoft Remote Desktop for macOS. Refer to this KB article on instructions to setup the newest version.

1. Click on Remote Resources
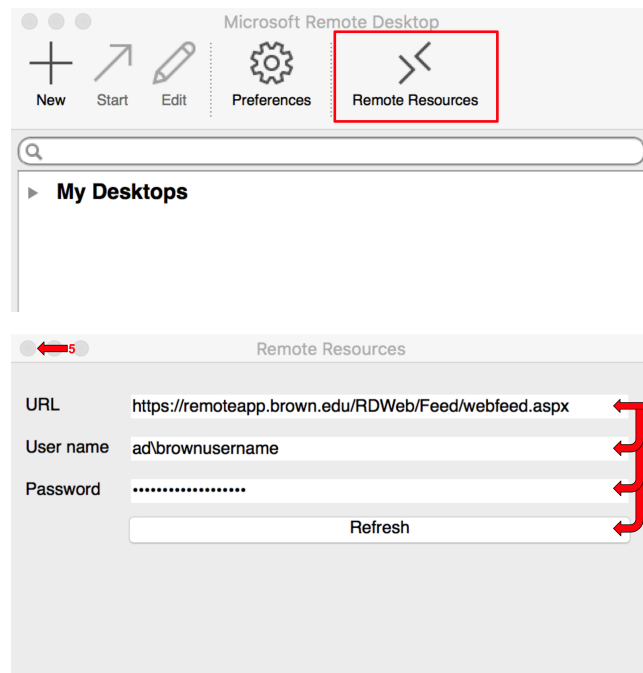

2. Insert the following:
URL:
https://remoteapp.brown.edu/RDWeb/Feed/webfeed.aspx
User name: ad\brownusername
Password: <yourBrownPassword>
Click Refresh and close out the Resources window.

3. Double-click on an app to run
