Copying Echo Captures to a different course

Stephanie Obodda - 2025-08-24 - Comments (0) - Lecture Capture

There may be times when it is needed to copy or duplicate old captures from a previous semester to include them in a current course. The instructions below will show you how to do this.

First, using your Brown credentials, log in here: <u>https://mediacapture.brown.edu:8443/ess/app</u>

You will see a list of all Echo capture that are associated to courses you are instructor of.

Locate the echo capture you wish to duplicate and hover your mouse over it until a set of options appear:

From these options click on Copy.

The next screen is where you will:

- 1. Update or change the title
- 2. Select the Term (Semester) you want to add the capture to

- 3. Select the course
- **4.** Select the section (typically matches the semester)
