BROWN

Create a Namecoach Assignment in Canvas

hong chau - 2023-07-06 - Comments (0) - Namecoach

Create an assignment that reminds students to record their name using the **Namecoach Assignment External Tool**.

1. Log in to canvas.brown.edu.
2. Select your course.
3. Select the **Assignments** tool.
4. Click the **+ Assignment** button.
5. Enter a title for the assignment and instructions in the fields provided.
6. Under the options for "Submission Type," select **External Tool** then the **Find** button. A pop-up window will appear.
7. Scroll through the list of options to locate and select **Namecoach Recorder.** Click the **Select** button.
8. Click the **Save and publish** button to make the assignment available to students.

Your students will now see a link to the new assignment due on the date you have specified. Each student will be asked to enter a preferred name, gender pronouns, and a recording either through their browser or over the phone. Each field is optional.

** **Known Issue:** Namecoach Recorder does not work using the Safari browser.

Note: At this point, **Namecoach** will not automatically submit a grade when your student records their name. You must make this a graded assignment for the **External Tool** option to appear under "Submission Type." Instructors and Graduate TAs will have to enter grades manually using the **Grades** tool. Additionally. enable the "*Do not count this assignment towards the final grade*" option to exclude the assignment from the **Grades** tool.
