Edit the HTML of Your Content

Stephanie Obodda - 2020-11-26 - 0 Comments - in Edit Content

Switch to plain text editor
Switching to the plain text editor will leave the WYSIWYG and open restricted HTML input for the page. Unless you are familiar with HTML, it is advisable to stay in the WYSIWYG and use the icons on the editor to format your content.

Switch to plain text editor

To switch back to the WYSIWYG editor once in the plain text editor, select the "Switch to rich text editor."
