El Capitan (Mac OS X 10.11) - What Works?

Stephanie Obodda - 2018-11-09 - Comments (0) - macOS

Last updated: 1/8/2016

New Apple computers are shipping with El Capitan. The IT Service Center will provide limited assistance with software and services running on El Capitan, but at this time, all Brown services do not work consistently with this operating system.

Compatibility Table

The table below describes software and services that were tested on El Capitan (Mac OS X 10.11):

- An "X" in the column titled "Works As Is" requires no special consideration to install, run or uninstall the software.
- An "X" in the "Exceptions" column means the software may be able to run with some user intervention. Notes for exceptions will appear in the "Comments" column.
- An "X" in the "Does Not Work" column means the software is not compatible with El Capitan.

Please note that all functions of applications may not have been tested. Testing of operating system updates are ongoing. Please report any functionality issues to the IT Service Center.

Installing some software may require gatekeeper to be disabled. See Apple's instructions for disabling gatekeeper: http://support.apple.com/kb/HT5290

Software

Name	Works AS IS	Exceptions	Does NOT work	Comments
Acrobat Pro XI	X			
Acrobat Reader 11	X			
After Effects CC	X			
Audition CC	X
