

Email to Graduating Students 2018

jeffrey clark - 2019-07-19 - Comments (0) - Leaving Brown

Subject: May grads: Changes coming in email and online services

Header: CIS and the BAA team up to support you

If the courses you finish this semester will complete your graduation requirements, congratulations!

Learn which Brown accounts and access will change during this exciting transition. (If you're continuing on at Brown in another role, like staff or a graduate program, your experience will vary—click the "Learn more" button at the bottom of this email for details.)

Note: Please be cautious about other emails you may receive related to accounts and graduation. In previous years, we've seen scam messages targeted at graduating students saying that an account will be closed unless action is taken.

Life may be changing, but you'll always be a part of Brown.

THESE THINGS WILL STAY THE SAME:

- Use your current Brown username and password to access all the resources you are authorized to use.
- Your Brown Google content will stay with you—your password, your Google Drive, and all your Google email content—even after "alumni" is added to your email address in June.
- You'll continue using BrownConnect, Handshake, and Rosetta Stone, with minor differences.

BUT HERE'S WHAT'S CHANGING:

- Student services such as card access, wifi, software, VPN, and your current library resources will stop working on June 4 (once your requirements are marked as complete by the Registrar's office). For a more comprehensive list, click the "Learn more" button below. You will receive an automated email the day before your

services stop.

- Your @brown.edu email account will be renamed to @ alumni.brown.edu nine days after you receive the automated email about your change in services, on June 13. After this happens, just make sure you log in as your_name@alumni.brown.edu. Your Google password stays the same.
- Email addressed to your @brown.edu account will go to your @alumni.brown.edu account for three months after your email address changes. After that, messages will bounce back to the sender.

KEY ACTION ITEMS:

- Did you set up any online accounts (think Uber, Netflix, job applications, etc.) with your @brown.edu address? If so, as soon as your @alumni.brown.edu address is live: replace your @brown.edu address with either your @alumni.brown.edu address or a personal address of your choice.
- Did you use Adobe Creative Cloud storage, your network home folder, or a Brown Dropbox account? If so, move your files to your Brown Google Drive before June 3 (it has unlimited storage and will follow you after completion) or a personal account.
- Add your post-Brown contact info to [your profile](#) to hear about alumni events near you, plus Brown news!

MOST IMPORTANTLY: LEAP INTO THE BROWN ALUMNI COMMUNITY!

- [Brunonia](#) is your guide to all things alumni.
- Check out upcoming [alumni events](#).
- Find your nearest [Brown Club](#).

[Learn more](#)

Congratulations on your anticipated degree, and best wishes with all that comes next! We'll be in touch again in a few weeks.

Gena Burke

Manager, IT Service Center

Sergio M. Gonzalez

Senior Vice President
