

Filmic Pro for Android

TJ Kalaitzidis - 2017-09-26 - Comments (0) - Installation Instructions

Unfortunately, Filmic Pro is no longer being offered. Apologies for the inconvenience.

To install Filmic Pro on your Android device, you will need to...

1. Fill out and submit this [request form](#). After submitting your answers, the form will automatically send you an email. The email contains a link to your app redemption code.
2. Follow this link on your Android device:
<https://play.google.com/store/apps/details?id=com.filmic.filmicpro&hl=en>. Or find Filmic Pro in the Google Play Store
3. Tap the box button which shows the price of the app.

*If your Android device does NOT have the Camera2 APK this app may not install to your device. See supported devices below. Stay tuned for a version of Filmic being developed for those devices with the Camera1 APK.

4. Accept the terms of access for the app.
5. In the next screen, tap the drop-down arrow next to the price of the app.
6. Tap the 'Redeem' link.
7. Enter the code you received in your email.
