GET Portal and Mobile App

Kara Kelley - 2020-08-20 - 0 Comments - in Business Systems

GET is a secure service providing students and employees with online Bear Bucks account management capabilities including adding funds to Bear Bucks by charging a credit card; viewing information about account balances and spending history; ordering food and reporting a lost or stolen Brown card. The [GET portal](#) is available on both desktop and mobile web browsers. After selecting 'Brown University' as your institution, you will login with your Brown credentials.

The same capabilities are available through the GET Mobile app available in the [App Store](#) and on [Google Play](#).
