

Google Prompt

Alex Vidmar - 2026-05-24 - Comments (0) - Google Workspace

Google Prompt is a software for two-step verification with your Google account.

Your phone must meet the following requirements to be compatible:

Android: Phones with updated Google Play Services App

Apple: Iphone 5s and above with Touch ID and the Google App

Set up:

1. On your computer go to the Sign in Security Section. Log in to your google account.
2. Go to Two Step Verification and a message should appear saying "Tired of typing verification codes?" Add google Prompt. Click on "Add Google Prompt". Note: Two step verification for your google account must be set up already. Instructions below. If you have two step setup skip to page 3.
 - a. Setting up Two Step Verification for your google account:
 - b. Go to Sign in Security Section
 - c. Scroll down to 2-Step Verification and click on 2-step verification
 - d. Log into your Google account and follow the on screen instructions to set up 2-Step Verification
3. Click on Get Started
 - a. For Iphone: Note: These steps may not appear if you already have the google app on your phone signed in to your google account.
 - i. Click Set up your iphone
 - ii. Follow the on screen instructions
 - b. For Android:
 - i. Click Set up your Android Phone
 - ii. Follow on screen instructions
