Gradescope is an assignment submission, grading, and analytics platform that leverages Artificial Intelligence and a logical UI workflow to make grading more efficient and standardized. It is a stand-alone tool that can integrate with Canvas to pull course rosters and push grades to the Canvas Gradebook. Below we have collected links to pertinent Gradescope resources.

For a consultation to get started with Gradescope, please contact dld@brown.edu

For technical support, please contact support@gradescope.com

For Instructors:

- Full list of resources
- Creating, editing and deleting an assignment
- Duplicating assignments
- Canvas i (Video Overview)
- Information to include on your syllabus
