

## Harmonize Discussion Tool

TJ Kalaitzidis - 2023-08-24 - Comments (0) - Learning Tools

### What is Harmonize?

**Harmonize** is a discussion tool add-on for Canvas that allows students to communicate, interact and engage more easily with one another. Harmonize supports media-rich discussions than standard Canvas Discussions by allowing you and your students to:

- Upload multiple files directly within posts and easily record audio and video comments.
- [Annotate images](#) and [video](#) to provide feedback.
- View a single student's responses across a post for easier grading.

See these [release notes](#) for information about new Harmonize features.

### Using Harmonize

Harmonize is available in your Canvas course as an "external tool", which can be used in an assignment. The tutorials below will help instructors get started with Harmonize.

- [Harmonize Basics](#)
- [Adding a Harmonize Canvas Assignment](#)
- [Creating Posts in Harmonize](#)
- [Organizing Harmonize Posts by Grid or List View](#)
- [Sorting Harmonize Posts](#)
- [Explore Harmonize Features](#)

### Resources

Instructors can find [the complete list of Harmonize online support guides here](#).

Harmonize provides support to all Brown users, so you may email [support@harmonizelearning.com](mailto:support@harmonizelearning.com) for questions related to Harmonize functionality.
