How to Manually Install SCCM

Jeffrey Pierce - 2021-04-13 - Comments (0) - SCCM

To Install new SCCM Client:

1. Go to: \\files.brown.edu\dfs\CIS_ClientEngineering\partners\packages\Microsoft\sccm
2. Copy locally the latest version number folder available
3. Run in command window from newly copied folder:

```
ccmsetup.exe mp:pccmcit.ad.brown.edu SMSSITECODE=BCM
```
