How to Turn off FileVault 2 Encryption

David Boyd - 2018-01-22 - 0 Comments - in Encryption

1. Open System Preferences.

2. Click the Security & Privacy preference pane.
3. Click the lock icon in the bottom-left corner of the window.

4. Enter an administrator user name and password.

5. Click "Turn Off FileVault..."

6. Click "Restart & Turn Off Encryption"

8. When decryption is complete, System Preferences will report "FileVault is turned off".
