FileMaker Pro Installation Instructions

Tuesday Mueller-Harder - 2023-10-25 - Comments (0) - Installation Instructions

Windows

1. Download the Windows installer.
2. Run the installer with elevated privileges by right-clicking and choosing **Run as Administrator**. FileMaker installation will begin, followed by Bonjour installation. .NET v4 will install if it's not already on the computer.
3. Follow the on-screen prompts and accept all defaults.
4. Download the Update to Filemaker Pro and install.
5. Launch FileMaker Pro.

macOS

1. Download the macOS installer.
2. Double-click the downloaded file to mount the disk image, then double-click on the installer to run it.
3. When the installation is complete, navigate to /Applications/FileMaker Pro.app and confirm installation was successful.

If you encounter a prompt that states the application or installer "cannot be opened because Apple cannot check it for malicious software," follow these steps to proceed with installing FileMaker:

- Open > System Settings > Security & Privacy > Security
- Click **Allow** for Filemaker to be installed
