Windows

1. Download the Stata installer for Windows.
2. Right-click the downloaded file and select **Run as Administrator**.
3. Follow the on-screen prompts to install Stata.

If you are prompted for a license:

1. Make sure Stata is closed and not running.
2. Go to **C:\brownsw\stata18**
3. Copy the STATA.LIC file (you may not see the .LIC part)
4. Go to **C:\Program Files\Stata18**
5. Paste the copied file in this folder

macOS

- Download and run the Stata installer for macOS.
- Follow the on-screen instructions in the installer and accept all default install options.
- When the installation is complete, launch **StataSE** from the **/Applications/Stata** folder.
