Keeping your Zoom client updated

gillian bell - 2020-12-08 - Comments (0) - Zoom Security

First things first: if you haven't set up your Brown Zoom account, please follow the instructions <u>here</u> to get started.

If you have the Zoom desktop client on your computer, it's important to keep it up to date.

Here's how to check for updates:

- 1. Sign in to Zoom desktop client.
- 2. Click your profile picture, then click **Check for Updates**.

Check for Updates 🔸	_
Switch to Portrait View	96 L
Switch Account	
Sign Out	

If there is a new version, Zoom will download and install it. Zoom also provides a video of how the process works <u>here.</u>

Not sure which version you're running? Follow the easy instructions <u>here</u> to see if your version is the most current.

Keep your Zoom meetings secure! There are tips in this article: <u>Brown's Enhanced Security</u> <u>Settings for Zoom.</u> Consult the IT Service Center (help@brown.edu) if you need help.
