

Library Resources Canvas Tool

marc mestre - 2023-07-11 - Comments (0) - Designing and Building Your Course

The **Library Resources** tool is available in all Banner-based Canvas sites. Instructors may add the tool to their site navigation by browsing to their Canvas site settings, navigation, then dragging the **Library Resources** item up into the active navigation section. Be sure to save your changes!

How to add the Library Resources tool to your Canvas site:

Your browser does not support the video tag.

No further set up is necessary! The **Library Resources** tool will automatically link to the appropriate subject guide, and the appropriate course guide if one exists. If you are missing a course guide, and would like to create one for your course, be sure to [contact your subject librarian](#).

If you run into any issues adding and/or using the **Library Resources** tool, please contact [Digital Learning & Design](#) at dld@brown.edu.
