

Maple Installation Instructions

Tuesday Mueller-Harder - 2023-10-25 - Comments (0) - Installation Instructions

Windows

1. Download and run the Maple installer for Windows.
2. Follow the on-screen prompts, accepting the default installation options.
3. If you have Matlab installed, you'll have the option of linking Matlab with Maple. Make your selections in the dialog box.
4. Accept the "Check for Updates" defaults.
5. At the pre-installation summary, click Next to begin the installation.
6. At the Completing the Maple Setup Wizard, click Finish.
7. The first time Maple is started, a dialog may appear, "You have installed a time limited edition of Maple....This is a full-powered version of this software....." Click **OK**.

macOS

1. Download and run the Maple installer for macOS.
2. Authenticate as an administrator.
3. Follow the on-screen prompts, accepting the default installation options.
4. If Matlab is installed on your computer, you must decide whether to link Matlab with Maple. Make your selection and click **Next**.
5. Select the Network License button. Click **Next**.
6. Select **Single Server**.
7. Enter **lm_maple.brown.edu** for the License Server, and leave the port at the default (27000). Click **Next**.

Linux

1. Download Maple by clicking on the link provided.
2. Follow the on-screen prompts, accepting the default installation options.
3. Confirm that "Network License" is selected.
4. Enter **lm_maple.brown.edu** in the Server field.
