

Mathematica Access and Download

Jeffrey Pierce - 2021-03-18 - Comments (0) - Software

CIS has made a change to our license for Mathematica software, so that you won't need to connect to Brown VPN while using the application from off-campus. As of March 18, 2021, you can download Mathematica directly from Wolfram's website, and set up licensing directly from the Wolfram cloud. Existing installations will continue to function as they do now. For more details, see the link below:

Three Wolfram titles are available on the software.brown.edu page for Student, Faculty and Staff:

- [Mathematica 12](#)
- [Mathematica Online](#)
- [Wolfram|Alpha Pro and Wolfram|Alpha Notebook Edition](#)

If you have any questions regarding Mathematica please email Software_Services@brown.edu for assistance.
