

## Mathematica Software For Student from Wolfram

Jeffrey Pierce - 2021-03-17 - 0 Comments - in Software

Brown has moved to a new licensing process which will allow you to use Mathematica without using the Brown VPN.

1. If necessary, create an account with Wolfram (one-time process):

- Go to [user.wolfram.com](https://user.wolfram.com) and click "Don't have a Wolfram ID? Create one."
- Fill out form using a [@brown.edu](mailto:@brown.edu) email, click "Create Wolfram ID"
- Check your email and click the link to validate your Wolfram ID

2. Request Mathematica local installation (installer and key):

<https://user.wolfram.com/portal/requestAK/23a1693efcca36bae1928b4fff89d2c8a6a86885>

- Click "Product Summary page" link
- Click "Get Downloads and select "Download" for your OS
- Run the installer on your machine; enter Activation Key when prompted
- Installations on multiple machines is supported; fill out the above form for each machine

3. Request Mathematica Online subscription (nice pairing to a local installation- best to have both)

- Go to <https://www.wolframcloud.com/?setsessiontheme=MONLINE>
- Type in school email address, choose option to use school netID and password
- During first sign in, follow the instructions to link your Wolfram ID
