Mathematica Software For Student from Wolfram

Jeffrey Pierce - 2022-01-20 - Comments (0) - Software

Set up one, or more, local Mathematica installations:

- Go to https://www.wolfram.com/siteinfo/

- Type in school email address, choose Student, then click "Download"

- Run the Download Manager, then run the installer

- When prompted for an Activation Key, instead click "Sign In" button to activate

- Type in school email, then school netID and password when prompted in a web browser

- This process can be used on multiple machines (campus or personal)

- No connection to Brown VPN or network required
