

OneDrive for the Web

David Boyd - 2025-05-30 - Comments (0) - OneDrive

Managing OneDrive Files on the Web

- From any supported browser, you can access your files by visiting onedrive.brown.edu
- If prompted to sign-in, use your Brown Microsoft account: username@ad.brown.edu (e.g., jcarberr@ad.brown.edu), followed by a DUO prompt.
- Under “My Files” you will see all of your OneDrive files and folders. These files and folders are synced across all platforms where you are signed in with OneDrive.

- Right-clicking on a file/folder or clicking on the ellipses (...) will give you a handful of options in the context menu
