Open Email Links with Gmail in Internet Explorer

Stephanie Obodda - 2021-10-16 - 0 Comments - in Email

1. Install the Google Toolbar for Internet Explorer:
Visit <http://www.google.com/intl/en/toolbar/ie/index.html>
2. After installing, click the new wrench icon at the top right of your browser
3. On the first page of settings, scroll down to "Web Browsing Tools"
4. Check the box next to "Use Gmail for 'Mail To' links" and click "Save"
