Personal Recorder User's Guide

Panopto Personal Recorder User's Guide

Stephanie Obodda - 2020-03-16 - 0 Comments - in Lecture Capture

1. To use Panopto Personal Recorder, you must first have Creator access to a folder in Panopto. Here's how to get access:
 1. **If you're using Canvas**, [Activate the Media Library](#), go to brown.hosted.panopto.com and click "Download Panopto" in the upper right corner.
 2. **If you're not using Canvas** - [Request Access](#) (Note: include the course(s) you are teaching or department requesting the recording folder.) Note: *You do not need to complete the request form if you are using Canvas.* A consultation with an Instructional Designer is not required, but recommended. Contact dld@brown.edu to set up a consult.
2. [Install Personal Recorder](#) on your computer.
3. Record using Personal Capture for [Mac](#) or [Windows](#).
