

Panopto Video Quizzes for Canvas Assignment Grades

Kyle Sloane - 2020-06-03 - Comments (0) - Panopto

Instructors can create Panopto video assignments that are synced with Canvas Gradebook and will report back in-video quiz results to be counted towards student grades or participation.

Creating an Assignment (Instructor)

This step requires you have already [added quizzes to your video in Panopto](#).

1. Log in to Canvas and navigate to the course in which you want to create a Panopto video assignment. Select the Assignments tab from the left-hand navigation. Then select the + Assignment button, located in the top right-hand corner.

2. Give the assignment a title and assign it the number of points it is worth. Please note: the setting Display Grades As is required to be set to Points, as Panopto does not support any of the other grading types at this time.
