Piazza & Student Privacy

TJ Kalaitzidis - 2019-04-17 - 0 Comments - in Piazza

Students should know that publishing your profile on the "Piazza Network" allows companies to contact you. As a student, you can choose to opt in or out of this data sharing through the settings menu. **Since the 2018-19 academic year, student accounts are opted-out by default.** Below are instructions for changing these settings. [More information about the Piazza sign-up process and Piazza Network network can be found here.](#)

Instructions

To check if your profile is published to the Piazza Network, visit your profile settings in Piazza by clicking the gear icon at the top right of the Piazza page near your username. Then click on "Account/Email Settings" from the dropdown menu.

The screenshot shows the Piazza web interface. At the top, there is a navigation bar with the Piazza logo, user name 'Jane Doe (ITC)', and a gear icon. Below the navigation bar, there is a sidebar with a 'New Post' button and a search bar. The main content area displays a 'Class at a Glance' dashboard with the following statistics:

Category	Value
1 unread posts	5 total posts
no unanswered questions	5 total contributions
no unresolved followups	0 instructors' responses
	0 students' responses

At the bottom of the dashboard, there is a link to download the app from the App Store and Google Play.

If you want to opt-out of the Piazza Network, select "Not in the Network."

Piazza Network Preferences

Piazza Network: In the Network Not in the Network

Event Digests: On Off
