

Remote Accessible Classrooms and Event Spaces

Kyle Nicholson - 2022-01-20 - Comments (0) - Teaching Learning and Research

Media Services has adapted most of the Registrar-controlled classrooms to be remote accessible. We added one or more installed camera(s) and microphone systems to the rooms listed below. With this additional equipment the instructor is able to teach a class to both in person and remote students by utilizing Zoom.

Request an appointment for a [Classroom orientation](#) or ask any information about our classrooms by emailing media_services@brown.edu.

Hybrid Enabled Classrooms:

| Building | Configuration |
|--------------------------------|---|
| 101 Thayer Street Room 116-A | Base Installation |
| 101 Thayer Street Room 116-B | Base Installation |
| 101 Thayer Street Room 116-E | Base Installation |
| 111 Thayer Room 112 | Base Installation (Dual Camera) |
| 111 Thayer Room 114 | Base Installation (Dual Camera) |
| 111 Thayer Room 116 | Base Installation (Dual Camera) |
| 111 Thayer Room 138 | Base Installation (Dual Camera) |
| 67 George Street Room 104 | Base Installation |

| Urban Environmental Lab, Room 106 | Base Installation |
| Watson CIT Building Room 265 (PC Lab) | Base Installation |
| Watson CIT Rm 219 | Base Installation |

Only some of the spaces are equipped with Zoom Rooms technology.

Zoom-Room **requires no laptop**. Zoom Rooms are outfitted with Mac Mini computers

dedicated to Zoom operation (requires dedicated network connection). Software for Zoom is embedded in Crestron LCD control panel. Requires installed webcam, microphones & speakers. [Full list of Zoom Rooms.](#)

All other spaces are Zoom-ready: Zoom ready requires a laptop be brought to space. Webcam, microphone & speakers installed. Laptop is connected via HDMI & USB.
