BROWN

Requesting a Github Org

Nancy Freeman - 2020-11-04 - Comments (0) - CCV Website Articles

Creating Organizations for your course or laboratory:
Creating a GitHub Organization is Free. GitHub's Free Plan provides unlimited private repositories and collaborators and should be sufficient for most users. Simply follow Github's instructions to create your organization. Organizations with complex workflows that make use of GitHub's Actions and storage, can upgrade their plan using an education discount.

For more information see our Cloud Services Documentation
