

Retrieving Your Zoom Meeting Attendance List

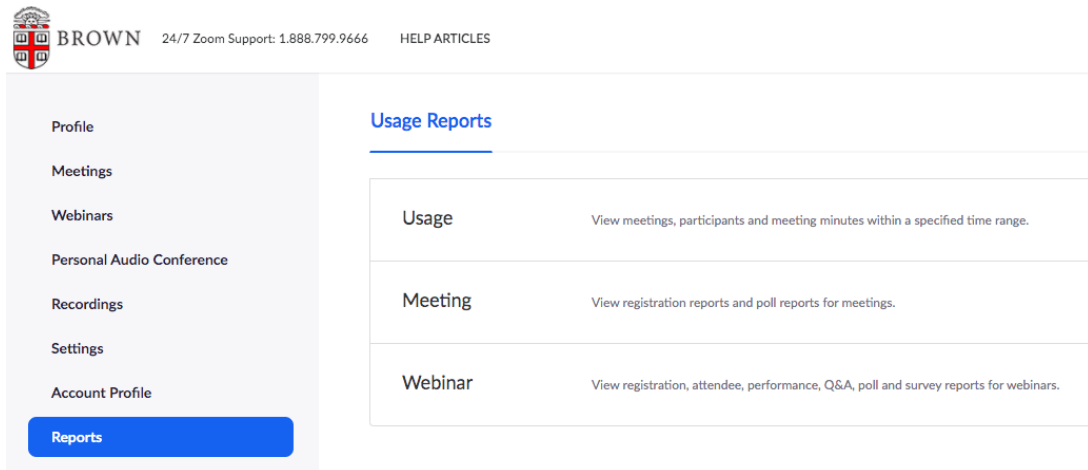

gillian bell - 2020-09-02 - Comments (0) - Zoom for Teaching and Learning

Since Zoom can support up to 300 users in a single meeting, hosts may want to know who has joined the session, how long they stayed in the session, and what time they leave the session. Zoom offers usage reports 30 minutes after a session is concluded.

The Usage report allows you to view a list of meetings, participants, and meeting minutes for meetings you have hosted.

To retrieve your attendance list:

1. Visit <https://brown.zoom.us/> and sign in with your Brown account.
2. Click **Reports** on the left pane and click **Usage**.

The screenshot shows the Zoom Reports interface. On the left is a navigation menu with options: Profile, Meetings, Webinars, Personal Audio Conference, Recordings, Settings, Account Profile, and Reports (highlighted in blue). The main content area is titled "Usage Reports" and contains three rows of report types:

Usage Reports	
Usage	View meetings, participants and meeting minutes within a specified time range.
Meeting	View registration reports and poll reports for meetings.
Webinar	View registration, attendee, performance, Q&A, poll and survey reports for webinars.

Check that the date range at the top includes the session for which you want to take attendance.

You may use this link to directly access your Zoom reports, but you must be signed in to access the reports. <https://brown.zoom.us/account/my/report>

Zoom Reports can be retrieved for the last 12 months, with a search range of up to one month at a time. If a meeting is not started in 30 days and is deleted by Zoom, the reports for the meeting are also deleted. For details, please visit "[Getting started with reports](#)".
