Set up Brown email on a non Brown owned iPhone

Stephanie Obodda - 2026-05-21 - Comments (0) - Email

1. Launch **Settings** from your Home screen.
2. Tap **Mail, Contacts, Calendars**.
3. Tap **Add Account...**
4. Tap **Gmail**.
5. Enter your name, Gmail email address, password, and a descriptive name (like Gmail, or Personal, so you can identify it later).
6. Select which services you want to leave on for sync, Mail, Calendars, and Notes. (You probably want all of them on.)
7. Tap **Save**.
