

Share and Publish Tableau Visualizations

Wendi Lewis - 2020-03-16 - Comments (0) - Tableau

Here are 4 ways to share or publish Tableau content:

- Create a [packaged workbook](#) for someone else to open and explore with Tableau Desktop or [Tableau Reader](#) (free download, think Adobe Reader for visualizations)
- [Export a view as an image, PDF, or PowerPoint](#)
- [Publish Visualizations to Tableau Server](#)
- [Publish to a Website with Tableau Public](#)
