

Sharing specific starting point in a Panopto video

Kyle Sloane - 2024-02-16 - Comments (0) - Panopto

Student Viewers are able to share a link to a Panopto video that begins at a specific timestamp. This allows viewers to reference a specific point of interest in a video. Sharing will still follow the [share settings](#) of the video and only those authorized access can view

1. When watching a video in the player, Select the **Share** icon in the upper righthand corner of the Panopto viewer, making sure that the player is at the timestamp where you want your shared video to start.

2. The share window will have the option to select *Start at time* near Copy Link. If you do not check that box it will share from the beginning of the video.

Who can access this video
Anyone at your org who has the link [Change](#)

[Link](#) [Embed](#) [Facebook](#) [Twitter](#)

Start at **0:16** <https://brown.hosted.panopto> [Copy Link](#)

3. When users navigate to the copied link, the video will open in the Panopto viewer to the timestamp selected.

The screenshot shows a Panopto video player interface. On the left, there is a video thumbnail of a cartoon character with glasses and a red plaid shirt. Below the thumbnail is a search bar and a list of controls: Details (Fri, Sep 4 2020 at 1:05 PM), Comments, Notes, and Bookmarks (Test User388). The main video area displays a presentation slide with the title "FEATURES TO ENHANCE MEDIA". The slide content includes a bulleted list: "Closed Captioning" (with a CC icon), "Attach PDFs" (with a PDF icon), "Insert Quizzes" (with a quiz icon), and "Basic non-destructive editing online" (with a video editing icon). The slide also features a "NERCOMP" logo in the bottom right corner and a "BROWN" logo in the bottom left. The video player controls at the bottom show a progress bar at 0:16, a volume icon, and a "Quality" dropdown menu.
