

Top Hat Instructor Guide

James Foley - 2023-07-06 - Comments (0) - Top Hat

Brown now has an official partnership with [Top Hat Classroom](#) as the university's centrally supported in-class polling solution. Top Hat's interactive, cloud-based teaching platform leverages student's devices to increase in-class engagement and get real-time feedback.

Getting Started

- **Top Hat** has provided a [Course Setup Guide](#) to walk you through creating your Instructor account and course.
- After you have done so, their [Quick Start Guide](#) will take you through the basics of using **Top Hat** for your course.
- **Top Hat** has provided video instruction on [Taking Attendance](#).

More Information

- If you are interested in using **Top Hat**, but are concerned that your students may not have access to a device, we can make one available to them through the [IT Service Center](#).

Note: Please [email Digital Learning & Design](#) with any questions as well as questions pertaining to:

- **Accessibility accommodations:** [Digital Learning & Design](#) and [Top Hat](#) are committed to accessible and universal learning experiences. [Contact Digital Learning & Design](#) to discuss how **Top Hat** can make your course more universal or help you meet the needs of students who request accommodations.
- **Additional features:** Top Hat also offers other features, such as digital textbooks, quizzing, and assignments. If you are interested in exploring these features, please [email Digital Learning & Design](#).
