Creating a new page: Text Instructions

You can create pages in Canvas to provide your students with course content, media, links, and other content.

1. Log in to Canvas at canvas.brown.edu
2. Select a course in the Global Navigation menu on the left
3. Click **Pages** in the Course Navigation menu
4. Click **+ Page**. Click **View All Pages** if **+Page** does not appear.
5. Enter the name of the page and add content.
6. Click **Save** to save the page and publish it later. Click **Save & Publish** to save the page and make it viewable to students immediately.
7. Click **View All Pages** to view a list of pages previously created.

Using Text Editor to Add Content to Pages

You can use the Text Editor to insert text, images and media like you would in an email or a document.

- [1] Insert media uploading audio or video
- [2] Link any word or phrase to an external URL
- [3] Embed an external image by pasting its URL or choosing a picture from Flickr creative commons
- [4] Insert an equation with a wide variety of symbols
- [5] Insert media from Media Library
- [6] Embed video from a website, like YouTube

1. Navigate to the video you would like to embed
2. Click **Share**
3. Click **Embed** and copy the code
4. Return to Canvas
5. Click **HTML Editor** at the top of the Rick Text Editor to view the HTML code
6. Paste the code
7. Click **Save** to see your video on your final page

At any point while creating a new page you can rename it or delete it. You can hide the page from students and select which users have permission to edit the page. Return to Pages at any time to edit your pages.

Set a Front Page

1. Click **Pages** in the Course Navigation menu on the left
2. Click **View All Pages** on the top left to see pages you have previously created.
3. Click a page's **Edit** icon (e.g., three ellipses) and select **Use as Front Page** in the menu.
