Warning message when sharing Drive files with external users

Kyle Oliveira - 2022-08-23 - Comments (0) - Google Drive

Due to Brown's current data security policies, Google Drive documents that have been identified to contain sensitive or protected data may be prevented from being shared or users may see a notice about possible data loss when sharing with external accounts.

If you believe your document does not contain sensitive information or you have questions about the policy, please [submit a request](#).

Warning Notice

Blocked Sharing
